Anti-Rabies Virus Mouse Monoclonal Antibody Clone 1112-1C8-3A5

Catalog number RDB.1112-1p100

Description

Anti-Rabies Virus Mouse Monoclonal Antibody
Species: Mouse monoclonal
Isotype: IgG1κ
Specificity: glycoprotein of ERA (Evelyn Rokitniki Abelseth) strain Rabies virus
Clone: 1112-1C8-3A5
Format: Unconjugated
Material size: 100 µg

Specifications

Source: *In vitro* production,
Purification: Protein A
Formulation: lyophilized
Purity : > 95 %
Qty: 100 µg

Storage instructions:
Pulse the vial before resuspension the antibody in ultrapure sterile water.
Store at +4°C for short term (1-2 weeks). Store at -20°C for long term.
Avoid repeated freeze / thaw cycles.

Tested applications: ELISA (qualified for sandwich ELISA with anti Rabies monoclonal antibody clone D1-25)
Optimal dilutions/concentrations should be determined by the end user.
