Anti-Rabies Virus Mouse Monoclonal Antibody, Biotin Conjugated Clone D1-25

Catalog number RDB.D1-25b500

Description

Anti-Rabies Virus Mouse Monoclonal Antibody, clone D1-25
Species: Mouse monoclonal
Isotype: IgG1
Specificity: Native G-protein antigenic site III Rabies Virus
Clone: D1-25
Format: Biotinylated
Material size: 500 µg

Specifications

Source: *In vitro* production, serum free conditions
Purification: Protein A
Formulation: lyophilized
Purity : > 95 %
Quantity: 500 µg

Storage instructions:
Pulse the vial before resuspension the antibody in ultrapure sterile water.
Store at +4°C for short term (1-2 weeks). Store at -20°C for long term.
Avoid repeated freeze / thaw cycles.

Tested applications: ELISA (qualified for sandwich ELISA with anti Rabies monoclonal antibody clone 1112-1)
Optimal dilutions/concentrations should be determined by the end user.
